

Cargo Insurance (2)

Title: Cargo Insurance (2)

Educational Objective: The objective of the lecture is to provide an understanding of the international legal environment for the transport of goods and analysis of the Insurance Clauses of the French and English markets and their use and the impact of these clauses and special conditions.

Target skills: Be able to offer either French or English insurance conditions depending on the type of client and the type of risk proposed.

Target audience: This course is designed for brokers, underwriters, account executives and claims handlers who already have a thorough knowledge of the mechanics of cargo insurance and who wish to understand the mechanics of cargo liability to enable them to pursue recourse.

Prerequisite skills: Overall theoretical and practical knowledge of the world of transport insurance and the insurance contract.

Technical teaching resources: The lecture will consist of PowerPoint presentations with live commentary and analyses of market figures, risk analysis based on concrete examples and analysis of standard policy wordings and market slips policy

Final Evaluation: : The trainees will be asked to write a short report following their completion of the evaluation document. A list of signatures of the trainees and a certificate of attendance will be issued together with a short report from the convenor summarising the day.

Evaluation Document: Multiple-choice questions (MCQ)

Duration : 1 day / 9 hours
