

# Introduction to Marine and Transport Insurance

**Title:** Introduction to Marine and Transport Insurance

**Educational Objective:** The objective of the lecture is to introduce you to the maritime and transport insurance market, its features, its particularities, its international rules and its complexities. It will be followed by another lecture; "Introduction to the Insurance Markets, Actors, Controls and Compliance".

**Target skills:** A understanding of the biggest challenges of the transport insurance market, its particularities, and international aspects as well as French and English legal aspects.

**Target audience:** This lecture is intended for junior brokers, junior underwriters and account handlers who are starting a career in marine and transport insurance and reinsurance.

**Prerequisite skills:** Global knowledge of P&C Insurance rules.

**Final Evaluation:** The trainees will be asked to write a short report following their completion of the evaluation document. A list of signatures of the trainees and a certificate of attendance will be issued together with a short report from the convenor summarising the day.

**Evaluation Document:** Multiple-choice questions (MCQ)

**Duration:** ½ day / 5 hours

**Course content:**

- Why history allows a better understanding of modern insurance
- The international nature of transport insurance
