

New Risks New Products: Cyber, Communicable diseases, Contingent Business Interruption

Title: New Risks New Products: Cyber, Communicable diseases, Contingent Business Interruption

Educational Objective: The objective of the lecture is to present the new challenges of the marine and non-marine transport insurance market and to assist in an understanding of the limitations of the existing solutions.

Target skills: Understanding the emerging risks and the limitations of the current market solutions

Target audience: This lecture is intended for brokers, underwriters, account handlers and claims handlers who need to propose new and innovative solutions to their clients.

Prerequisite skills: Knowledge and understanding of the marine and non-marine transport insurance contracts..

Technical teaching resources: The lecture will consist of PowerPoint presentations with live commentary and analyses of market figures, risk analysis based on concrete examples, and analysis of standard policy wordings and market slips.

Final Evaluation: The trainees will be asked to write a short report following their completion of the evaluation document. A list of signatures of the trainees and a certificate of attendance will be issued together with a short report from the convenor summarising the day.

Evaluation Document : Multiple-choice questions (MCQ)

Duration : ½ day / 5 hours
